## FIFRA 25(b) Exempt Insecticide

EcoVia CA contact aerosol is a new highly effective botanical insecticide that delivers quick knockdown/kill, repellency, and residual kill against a broad spectrum of crawling and flying insect pests. EcoVia CA can be used for crack and crevice, void, spot and space treatments, and is compatible with popular aerosol delivery systems. It is a FIFRA 25(b) exempt product that is also National Organic Program (NOP) compliant, and is in Rockwell Lab's Green Zone product line. Your customers will appreciate the pleasantly-scented, natural-based formula. EcoVia CA is available in 16 oz cans that include a crack and crevice injection straw.

- Research-based botanical insecticide, EPA Exempt 25(b) product
- Provides both rapid knockdown and residual kill / repellency
- Broad spectrum insecticide, including bed bugs
- NOP compliant
- Can be used for crack, crevice, void and space treatments
- Compatible with professional aerosol injector delivery systems
- Includes an injector straw
