Essentria® IC-3

Insecticide Concentrate

TREATMENT OPTIONS

- Broadcast treatments
- Barrier and perimeter treatments
- Spot treatments
- Fogging applications

ACTIVE INGREDIENTS

- Rosemary Oil 10%
- Geraniol 5%
- Peppermint Oil 2%

ABOUT THE ACTIVE INGREDIENTS

Plant-based insecticides have been used for centuries to control and repel pests. Essentria® IC-3 Insecticide Concentrate is formulated with three potent, botanically derived active ingredients – rosemary oil, geraniol, and peppermint oil. Rosemary oil repels mosquitoes and other flying insects. Geraniol is derived from geraniums, rose and lemon plants to repel ticks, fleas, flies, and other pests. Peppermint oil kills, repels, and has larvicidal effects on a variety of insect species.

FEATURES

- Approved for sensitive application sites
- FIFRA 25(b) Exempt
