### **General Information**

Broad use label for inside and outside non-food handling areas.

Broad spectrum label for use on: ants, centipedes, cockroaches, millipedes, spiders, silverfish and other crawling insects.

Doesn't excite stinging insects.

Kills pyrethroid-resistant bed bugs.

Long-lasting non-pyrethroid control of ants.

Lightweight for better coverage and more applications per pound than leading dust.

## Alpine means more than dust

Alpine Dust is part of a family of Prescription Treatment® brand Alpine insecticides that also features
Alpine ant and termite foam and Alpine pressurized insecticide. All three products contain the active
ingredient dinotefuran, a new nonrepellent to the pest control industry that the EPA has granted reducedrisk status for public health use.

\* All **Alpine** formulations contain the active ingredient dinotefuran, a new nonrepellent to the pest control industry that the EPA has granted reduced-risk status for public health use.
